

SLÆGTSFORSKNING PÅ COMPUTER - ANSAGER 2018

Finde dødsdato eller adresse

Oftentimes we try to find people who could be alive yet, or find out when and where they died. Here are a few helpful resources:

Deaths publicly available in Statstidende:

<http://www.aneguf.dk/>

Do you know a possible churchyard, can you search directly in the churchyard's register over graveyards (without 10-year restriction):

<http://www.findgravsted.dk>

Search in the CPR register if the person could have been alive in 1971. Use NEM-ID. Search for "Address questionnaire"

<https://www.borger.dk/>

Search on Google. Set the name in the search box and specify e.g. birth year or city:

["nikolai marius madsen" 1885](#)

Search on Facebook

Search in death notices:

<https://xn--ddsannoncer-ggb.afdoede.dk/>

See in all newspapers. Set name in the search box as with Google search.
